

Memo No. 878 - 1S / 92 / 2023

Date 06.03.2023.

CIRCULAR

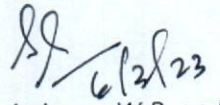

For sometime past, this Department is receiving numerous complaints regarding mismatch of share and share area of plots. From analysis of e-Bhuchitra database it is revealed that 389252 no. of misc. cases are lying pending at different levels. It is being found that while doing mutation and/ or any other type of corrections, the Revenue Officers are committing errors, resulting in such huge no. of mismatch leading to misc. cases.

Consequently, the DL&LROs are being flooded with cases seeking permission for correction of such mismatch. Hence to arrest such errors and to reduce the pressure upon the DL&LROs to give electronic permission for such corrections through e-Bhuchitra application software it has been decided to stop the following:

- (i) Editing of share of a plot in a *khatian* where summation of the total share of the said plot in all concerned *khatians* is equal to 1.0000;
- (ii) Editing of area of a plot in a *khatian* where summation of area of the said plot in all concerned *khatians* is equal to the total area of the plot.

However, if any change with respect to the above in a particular *khatian* (inter-se share or share area) is required, then express electronic permission from concerned SDL&LRO should be taken through e-Bhuchitra application software.

This system is already live in e-Bhuchitra application software.

Land Reforms Commissioner, W.B. and
Secretary to the Government of West Bengal.

Memo No. 878 / 1(4) - 1S / 92 / 2023

Date 06.03.2023.
